Course Overview

This 2-day intensive program is designed to equip senior professionals and emerging leaders with the tools, frameworks, and insights to drive sustainability transformation within their organizations. The course delivers a strategic, operational, and communicative understanding of sustainability and ESG practices aligned with global standards.

What You'll Learn

Sustainability & ESG Frameworks

Gain deep insight into international standards such as:

- GRI – Global Reporting Initiative
- SASB – Sustainability Accounting Standards Board
- EFQM Sustainability Excellence Model
- UN SDGs and ESG-related regulatory trend

Strategic ESG Integration

Learn how to embed ESG into business strategy, operations, governance, and performance management.

Sustainability Reporting & Communication

Understand the importance of transparent reporting and how to effectively communicate sustainability goals and achievements to internal and external stakeholders.

Stakeholder Engagement & Influence

Build stakeholder trust and drive collaboration to align ESG goals across departments and value chains.

Business Case for Sustainability

Articulate how sustainability enhances profitability, competitiveness, and long-term organizational value.

Trends, Risks & Future Outlook

Stay ahead with insights into climate change, regulatory shifts, and sustainability megatrends.

Practical Tools & Leadership Skills

Apply real-world frameworks, dashboards, and leadership techniques through interactive case studies and action planning.
