About the Certifying Body

International Computer Auditing Education Association is registered as a non-profit organization in BC, Canada with Society Incorporation Number S-0060477. The International Certification and Accreditation for Environmental Auditors (ICAEA) is a renowned certifying body dedicated to promoting excellence in environmental auditing and related fields. ICAEA provides professional certifications and accreditation for environmental auditors, ensuring the highest standards of competency, integrity, and credibility.

The purpose of the society is to give the potential computer auditors an overview of the main activities of computer audit and the role of computer auditor; to assist the potential computer auditors to become a successful computer auditor; to define the competency of a computer auditor; to define the learning map of a computer auditor; to evaluate the professional quality of a computer auditor.

With a global presence, ICAEA offers a range of certification programs designed to validate the knowledge, skills, and expertise of environmental auditors. These programs cover various aspects of environmental auditing, including environmental management systems, sustainability reporting, ESG auditing, and compliance assessment.

ICAEA's certifications are highly regarded in the industry and are recognized internationally. They demonstrate the proficiency and professionalism of environmental auditors, providing assurance to organizations, stakeholders, and regulatory bodies.

Through its rigorous certification process, ICAEA contributes to enhancing the quality and effectiveness of environmental auditing practices, fostering sustainability, and promoting responsible business conduct worldwide.
